

Functions

Max load : 300 kg
 Lifting speed : 20 - 25 mm/sec
 Number of lifts per charging : 45 with max. load

Operation

Electric : Operating panel
 Emergency stop : Electronic
 Safety cut-out : Mechanical/electrical safety lists

Weight and materials

Weight : 107 kg
 Materials : Rustproof steel and anodized aluminium

Electrical parts

On/off : Automatically
 Power consumption
 Min. : 6 W
 Max. : 170 W
 Periodic load (%) : 10/90
 Fuse : T10A
 Battery : 2 pcs 12 V/7 Ah
 Gastight and maintenance free
 Battery indicator : Red, yellow or green light diode emits light depending on current intensity.
 Charger : Fully automatic.
 Included with the LP12
 primary : 230 V
 secondary : 24V DC/1 Ah
 Charging time, max. : 8 hours

Classification tightness

Operating panel and electronics : IP 66

Accessories/ Miscellaneous

: Extra battery box

Marking

CE-marked according to 98/37/EF : Mutual approximation of the laws of the Member States on the safety of machines

Item number/model

19000-1 : LP12 mobile lifting platform

Classification

according to ISO 9999 : 18 30 06
